Toy bicycle helmets	May be used as an actual protective helmet	The product must either comply with the mandatory bicycle helmet requirements or carry a warning in accordance with the regulation		
Battery Operated Product (except intentional emitters)	Electromagnetic Interference with other products	Test report confirming compliance with relevant Electromagnetic Compatibility (EMC) standard, e.g. AS/NZS CISPR 14, 15, 22, etc. (The laboratory decides the relevant standard)		Test reports to CISPR or EN EMC Standards are acceptable as these standards are equivalent

Compliance Checklist

<u>Mandatory Requirements</u>				
Product Type	Concern	Document	Report Req/Date Meets Reqmt or N/A	Comments
Products other than Battery Operated (except intentional emitters)		Technical description Circuit diagram Declaration of conformity Test report confirming compliance with relevant Electromagnetic Compatibility (EMC) standard, e.g. AS/NZS CISPR 14, 15, 22, etc. (The laboratory decides the relevant standard) RCM Mark		Test reports to CISPR or EN EMC Standards are acceptable as these standards are equivalent
Toys with Radio Transmitters		Technical description Circuit diagram Declaration of conformity Test report confirming compliance with AS/NZS 4268 RCM Mark		Frequencies to be in accordance with Class Licenses given in AS/NZS 4268
Electrical Toys	Various	Test report confirming compliance with AS/NZS 62115:2011		Test reports to EN 62115 are acceptable
Products with Button Batteries intended for use by children or attractive to children	Perforation of internal tissue if swallowed	Proof of compliance with the Industry Code for Consumer Goods that Contain Button Batteries		
Electrical product that is not a 'Declared Article', e.g. those with supply voltages less than 50 V	Overheating	Test report confirming compliance relevant electrical safety standards, e.g. AS/NZS 60598 for luminaires		Test reports to EN standards are acceptable
External Power Supplies and any other electrical products that are, or contain 'Declared Articles'	Electric Shock Overheating	Test report confirming compliance relevant electrical safety standards, e.g. AS/NZS 61558 for power supplies Approval and registration in accordance with the Electrical Equipment Safety Scheme RCM Mark		Test reports to EN standards may be acceptable along with 'top-up' testing to AS/NZS variations
External Power Supplies	Energy efficiency	Must meet or exceed the requirements of performance mark III in AS/NZS4665 Nameplate to be marked with indication of energy performance Products must be registered with State Authorities		Online registration is available at www.energyrating.gov.au

Compliance Checklist

<u>Claims</u>				
Product Type	Concern	Document	Report Req/Date Meets Reqmt or N/A	Comments
ASTM F963	Misinformation	Test report confirming compliance to the standard		All claims must be correct and verifiable
EN 71		Test report confirming compliance to all applicable parts of the standard		
AS/NZS ISO 8124		Test report confirming compliance to all applicable parts of the standard		
Phthalate free		Test report confirming that there are no detectable phthalates in the item		

General Safety				
Product Type	Concern	Document	Report Req/Date Meets Reqmt or N/A	Comments
All Toys - Mechanical and Physical Properties	Safe for intended use and user	Test report confirming compliance with AS/NZS ISO 8124.1 or EN71-1 or ASTM F963		Any of the recognised international documents are sufficient to demonstrate the general safety of the toy
Toys that may be worn or entered - Flammability		Test report confirming compliance with AS/NZS ISO 8124.2 or EN71-2 or ASTM F963		
All Toys – Migration of certain elements		Test report confirming compliance with AS/NZS ISO 8124.3 or EN71-3 or ASTM F963		
Experimental sets for chemistry and related activities		Test report confirming compliance with AS 8124.4 or EN 71.4		
Chemical toys (sets) other than experimental sets		Test report confirming compliance with AS 8124.5 or EN 71.5		
Domestic activity toys		Test report confirming compliance with AS/NZS ISO 8124.6 or EN71-8		
Products with plastic intended to be in contact with Food		Test report confirming compliance with AS2070		US and European assessments are also acceptable, e.g. EN 14372
Toys with liquids or compounds that may contact the skin or be ingested		SDS sheet in accordance with Work Health and Safety Regulations or Toxicological Risk Assessment		
		Microbiological test to confirm the effectiveness of any preservatives		

Compliance Checklist

<u>Permanent Bans</u>			
Product Type	Concern	Document	Comments
Inflatable toys containing beads	Choking	Consumer Protection Notice No 13 of 2011	Permanent Ban from Feb 1, 2011
Laser Pointers	Replica firearms	NSW Fair Trading Act, Section 31(1) Order.	Laser pointers designed to depict or resemble a gun are prohibited
