Why HR Matters

\$72,500 Compliance Risks

The Fair Work Ombudsman has issued fines of up to \$72,500 per breach for small businesses - showing how costly HR mistakes can be.

30% Retention Costs

Replacing an employee can cost around 30% of their annual salary. Good HR practices improve retention, saving both time and money.

2.3x Performance Impact

Highly engaged teams deliver up to 2.3 times greater revenue growth. Strong HR foundations directly boost culture and business performance.

\$10.9B Annual Mental Health Cost

Poor workplace mental health costs Australian businesses an estimated \$10.9 billion each year in absenteeism, presenteeism, and compensation claims.

Exclusive Benefits for Members
